

The Most Accessible & Easy to Use Safety Data Sheet Management Software for Dental Practices

AutoSDS: Simplifying Chemical Safety Compliance

Accessible & Easy to Use

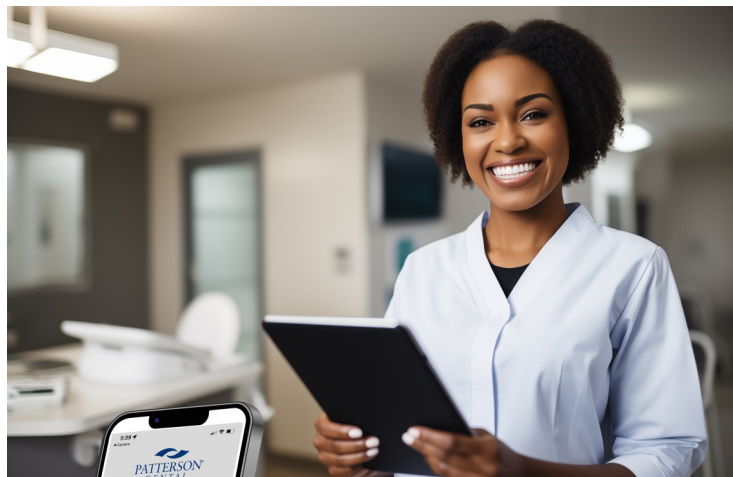

- Accessible from any mobile device and any location.
- Your staff can access a full database of up to date SDSs.
- Easy to view, download, print and share SDSs and other technical documents as needed.

Efficient & Scalable

- Easily configured for multiple locations and departments.
- Unlimited amount of users.
- Two levels of access includes an administrative portal for reporting.

Up-To-Date & Compliant

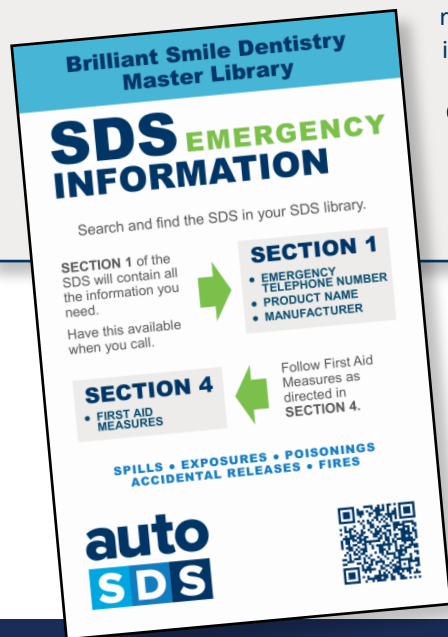

- Sourcing compliant up-to-date documentation is available.
- Easy reporting features, including the OSHA mandated chemical inventory list.

AutoSDS mobile app allows instant access to vital information with a simple QR code scan. No login required. Store data locally to meet OSHA requirements and ensure compliance, even offline.

Mobile App: Ideal for Onsite SDS Access

The new mobile app for AutoSDS is available on both Android and iOS platforms. Users don't need to log in to access information and can simply scan a QR code. Once downloaded, the app stores data locally on the device, meeting OSHA requirements and ensuring compliance even without internet access. This feature is ideal for practices equipping their workforce with mobile devices or tablets.

QR Code and Poster

AutoSDS subscribers receive a QR code and digital poster for immediate access to safety information for employees.

Why Choose AutoSDS?

In the fast-paced dental industry, staying up-to-date with GHS regulations while managing your practice's needs can be challenging. AutoSDS simplifies chemical regulatory compliance, giving you more time to focus on providing exceptional care for your patients. Transition to an efficient electronic SDS library with AutoSDS to enhance workplace safety and well-being for your team.

Call us to discuss a custom and compliant solution that will fit your safety needs.

An Easy and Affordable Solution for the Most Time Consuming Part of Your Safety Plan.
