Planmeca Emerald™ S

Planmeca Emerald S intraoral scanner combines hyper-speed image capture with excellence in diagnostic capabilities all-in-one lightweight, easy-to-use unit. Planmeca Emerald S is 2.5 times faster than its predecessor, scanning at 65 frames per second. Scanning a larger field-of-view offers a comprehensive view of the patient's oral environment. Shade Assist technology simplifies the color-matching process through improved color uniformity to remove the guesswork in matching restorations.
