PATTLOCK FACTS

Security

Your data is stored in

accredited data centers with

all the required physical and

electronic access controls

to ensure it is very secure.

Earned Accreditation

PattLock has earned URAC HIPAA
Security Business Associate
accreditation which ensures all
sensitive information remains
secure, accessible, and intact,
which is important for your
clients' personal
information.

Peace of Mind

PattLock securely stores 45 restorable generations of your backups. This protects your data from ransomware attacks, corruption, and deletion.

Outstanding PattLock support that knows IntraVet software, how to configure your secure backups and how to restore your data quickly when you need it.

Expert Support

WHY YOU NEED PATTLOCK

Cyber threats are on the rise with small healthcare offices being frequent targets.

Downtime because your data becomes inaccessible can cost thousands of dollars per day.

As an accredited cloud backup service, PattLock strengthens your data protection posture.

Robust Data Encryption

Only cloud backup software to be FIPS 140-2 encryption certified by NIST. This keeps your data safe from unauthorized access both in transit and at rest.

Accessibility

PattLock includes a secure local backup for immediate access and a secure cloud backup for disaster recovery.

Notifications

You can make sure your backups are running properly by email and/or text notifications, or by checking your backup logs on the PattLock customer portal from any device.

Effective

PattLock support has assisted users in restoring millions of files impacted by ransomware and other disasters.

Call Patterson TODAY to get started with exceptional cloud backup service at 877.422.8838
